Introduction	1
Walk-the-walk and talk-the-talk of Managed Care contracting	5
What cannot be changed?	11
What can be changed/could be changed if the payor is willing?	11

Terms And Conditions Common To Provider Agreements

Accuracy of information	14
All products clauses (provisions) – all or nothing	16
Amendments	17
Regulatory changes	18
Rejecting a change without being subject to it	19
Acceptance without reply	20
Unilateral changes	20
A very tricky example of what would seem to be double-talk	28
Assignment	30
Can you take over another entity’s existing contracts and any better reimbursements?	31
Audits: limiting direct access to electronic records in order to protect your data and system .	32
Capacity requirements	34
Claims submission timelines	35
The “Notice Prejudice Rule”	36
Company (payor) representations	37
Covered services	38
Data requirements	39
Dispute resolution/arbitration	40
Eligibility	41
Equipment (use of yours)	44
Governing law/compliance with laws	45
Hours of operation	47
Indemnification	48
New technologies/new services	50
Non-Discrimination	53
Notices	55
Overpayments (and underpayments)	61
Payment policies	63
Payment in full	66
Retroactivity	68
Subrogation	73
Term and termination	77
Termination with-cause and without-cause	79
Termination with or without-cause (“economic credentialing”)	81

Termination – continuation of care once an agreement ends	82
Termination – notifying Members	84
Timely payment (timing of payments)	84
Withholds and reserves	88
Surprises hidden in plain sight	90

Preparing For Negotiation And Renegotiation – Reviewing The Documents

Getting started with negotiations/re negotiations	90
Finding (obtaining) copies of all of your existing Provider Agreements and associated exhibits, attachments, appendices, and amendments	91
Prioritizing agreements based on patient volume and revenue	92
Obtaining draft copies of the latest version(s) payors are using	93
Reviewing draft copies of prioritized agreements and securing management team input	95

Looking At The Numbers – The Dollars And Cents (The Dollars and Sense?)

Negotiating or renegotiating reimbursements	96
Analyzing current or proposed physician reimbursements	96
Analyzing current or proposed facility reimbursements if paid by CPT	99
Analyzing current or proposed facility reimbursements if paid by groupers	100
Measuring expectations and success in an evolving marketplace	103
Differentiation – what makes your practice or facility special?	104
What to discuss first -- language or reimbursements?	106
What are reasonable reimbursement requests?	107
Thinking a bit outside the box part 1a – carve outs.....	107
Thinking a bit outside the box part 1b – a carve out “oops”	109
Thinking a bit outside the box part 2 – reimbursement accelerators	110
Thinking a bit outside the box part 3 – payment for multiple surgeries and implantables	111

Capitation For Ophthalmology

Some additional thoughts on capitation for ophthalmology	112
Key information necessary for any chance at successful capitation contracting	114
Included and excluded services – how much should (can) you take on?	115
First rule of thumb	
Second rule of thumb	
Suggested exclusions	
Always should be excluded	117
Excluded based on group/network capability and financial logic	118
Negotiation “must-haves”	118
What to do with excluded services	119
A quick thought on buffering capitated risk	119
Some capitation traps: watch for these	120

ERISA

A few thoughts on ERISA	121
-------------------------------	-----

You Gotta' Be Kidding (Strange Tales)

#1 When a payor demonstrates incomprehensible inflexibility	124
#2 Same ownership? Yes, but so what	125
#3 Same company? Yes, but so what	126
#4 You're terminated. And then you're not	126
